COMPANY PROFILE

NAME – SWAJAN INDUSTRIES PVT.LTD

GST NO. 27ABACS7584D1Z5

MAIL ID – yogesh@swajanindustries.in
development@swajanindustries.in
npd@swajanindustries.in

URL - www.swajanindustries.in

FACTORY AREA - 15,000 Sq ft.

ADDRESS — GAT NO-75,Chimbali Industrial Area

Chakan-Moshi Road, Tal-Khed, District-Pune Pin Code-412105

ABOUT US

**SWAJAN INDUSTRIES PRIVATE LIMITED
INCORPORATED ON 04TH SEPTEMBER 2018. GAT NO-75,Chimbali
Industrial Area Chakan-Moshi Road, Tal-Khed, District-Pune
Pin Code-412105**

**WHICH IS ON SHORT DISTANCE OF VENDORS AS WELL AS CUSTOMER
SO AS FACILITATE QUICK TRANSPORTATION AND EASY AVAILABILITY OF
RAW MATERIALS.**

**THE COMPANY IS A MACHINING UNIT FOR THE
MANUFACTURE OF PRECISION MACHINING COMPONENTS AS
REQUIRED BY THE AUTOMOBILE INDUSTRIES AND ENGINEERING
INDUSTRIES. THE MAIN OBJECT OF COMPANY IS TO CARRY ON THE
BUSINESS OF MANUFACTURING PRECISION MACHINE COMPONENT. IT
IS OUR INTENTIONS TO BE ASSOCIATED WITH A LONG TERM BASIS FOR
THE MANUFACTURING OF PRECISION MACHINING COMPONENTS,
ACCESSORIES, JIGS & FIXTURES ETC., WE ARE ALSO WILLIING TO
DEVELOP SOME OF THE EXPORT SUBSTITUTION COMPONENTS AS PER
OVERSEAS CUSTOMER.**

VISION

To be the “most preferred partner” for “best in class” manufacturing service.

MISSION

- **Adapt to technological changes and innovate.**
- **To offer world class products through continuous innovation**
- **To reach new sectors of industry in particular and society at large by offering products which make change in present state of machine tools.**

VERTICLE MILLING CENTRE

MANUFACTURING UNIT AREA

LIST OF MACHINES

- CNC TURNING CENTER 165 MM CHUCK DIA MAKE LMW-(08)
- CNC TURNING CENTER 200 mm CHUCK DIA MAKE LMW -(01)
- VMC MACHINE AMS MCV 450 with forth axis (2)
- SOCO FA-111-DR Cutting machine-(2)
- TRAUB MACHINE DIA 60 MM-MAKE PMT-(03)
- TRAUB MACHINE DIA 25 MM-MAKE PMT-(01)
- JET JE 80AC SINGLE END CHAMFER MACHINE-(4)
- SAWING MACHINE WITH STAND SINGLE SOCO-(1)
- SG-450 SHARPING MACHING -(1)

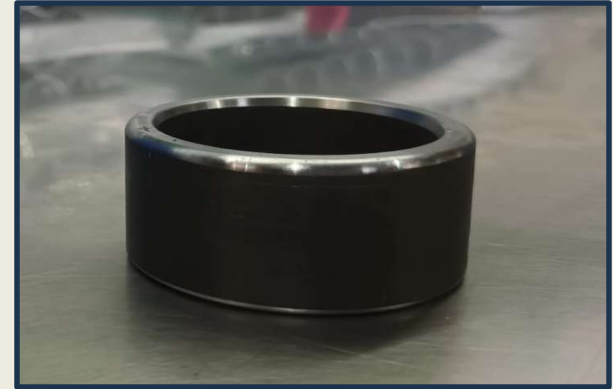

QUALITY MANAGEMENT SYSTEM

In order to meet customer requirements in terms of quality, we follow all guidelines as set out in ISO 9001-2015.

The processes and practices at Swajan Industries are designed to meet the quality standards for automobile and engineering sectors.

Further to addition, we have already initiated IATF 1649-2016 standards to meet more standards of quality requirements, we have all ready made road map for the same and implement IATF 1649-2016 plan upto this year end 2023 ,also plan 14001 & 45001 certification till March 2026 End end to meet envoirment & safety standard.

MS COMPONENTS

Tubular components

Aluminium casting and machined components

OUR VALUABLE CUSTOMERS

**We are also the authorised
distributor for TIMING BELTS
(Contitech Belting) &
BEARING (Schaffeler group)**

SWAJAN SALES GROWTH in million (INR)

Quality Certification

- **ISO 9001:2015**
- **Import Export License**
- **Udyog Aadhar (SSI):MH26B0088973**
- **UDYAM REGISTRATION CERTIFICATE:UDYAM-MH-26-0013229**

Future Expansion & planning

- **Additional CNC machine- of 3 plan in year 2023-24**
- **Additional Traub machine- of 2 plan in year 2023-24**
- **Additional VMC Machine-of 2 Plan in year 2023-24**
- **Additional 2 Tube Cutting and chamfering Machines in year 2023-24**
- **Profile projector , Trimos Plan in year 2023-24**
- **Additional DG Set planning for Power Backup plan in 2023-24**
- **Additional facility to start plan in Aurangabad in year 2022-23 as availability of land around 45,000 sq. feet.**

OUR VALUES

- **Integrity - We always deliver on our promise, irrespective of constraints and time.**
- **Respect - We always respect our customers, OEMs and stakeholders and trust they have placed in us.**
- **Innovation - Finding new ways to always do better. At Swajan Industries innovation is continuous and it is achieved by sharing ideas, knowledge, skills and experience to solve our customer's needs.**
- **Excellence- Striving to be the best in everything we do. At Swajan Industries we strive to be 'best-in-class' in every aspect of our business, in manufacturing and services.**

A close-up photograph of a laser cutting machine in operation. A white robotic arm is positioned above a metal sheet, with a laser head cutting through it. A large, bright, fan-shaped spray of orange sparks emanates from the cutting point. The background is slightly blurred, showing the industrial setting.

THANK YOU !!
